A (Section)

There's a cloud that lingers in our heads and we don't see,  
The fog that it brings, the shadowed memory  
I can only tell you what it means to me,  
The walls that were built, all through history

B

If we would only learn from all that we have known  
If we could only see all that we've been shown  
Out of hate and fear we surely should have grown  
And try to treat each other as if they were our own

C

Don't lie don't hurt don't cheat don't steal don't kill

A

Through the many circles of the centuries  
We've all been here before at least to some degree  
Now right and wrong should be plain for everyone to see  
I don't know why it's so hard just to let it be

B C

D

It's the world we want to live in It's the world we want to see  
Everybody has to start giving To live in ecstasy

C

A

I am hoping that someday we all will come around  
Realize the good that's there and hope that it gets found  
There can be Peace in our time if we turn around  
Look each other in the eye and stand on equal ground

B

Then we will have learned from all that we have known  
And we would truly see all that we've been shown  
Out of hate and fear we surely will have grown  
And we can treat each other as if they were our own
